SAFER project

SAFER launches an Open Call to implement technology solutions pilots in seafood organisations to provide efficient processes, improved & sustainable production

- **Who can participate?**

Organisations operating in the seafood sector, located in the **Interreg Atlantic Area** and interested in improving their processes and products by adopting new technologies.

- **What does SAFER offer?**

We offer Industry 4.0 technological solutions that provide more efficient processes and improved and sustainable production. Participants can choose among 3 main types of solutions:

- Manufacturing systems
- Internet of things (IoT) based solutions
- Water treatment

These solutions have already been successfully implemented in several seafood companies across the Atlantic Area. You can find more detail here about the **SAFER pilots**.

- **How to apply?**

Fill, sign and submit the application form (in pdf format) to **info@saferatlantic.eu** by **31st July 2022, at 17:00 CEST**. The application form and other related documents to this call can be accessed through the following links:

1. **Call announcement**

2. **Guidance for applicants**

3. **Application form**

Please contact SAFER partnership at **info@saferatlantic.eu** if you have any question
